Job Title: Quality Control Inspector

Job Summary: Dalton Industries, certified to ISO 9001:2008 quality standards is seeking to recruit a Quality Control Inspector to join our team. This position will be responsible for mechanical inspections on industrial equipment to blue print specifications, under the direction of the Shop Foreman.

Essential Duties and Responsibilities:

- Perform dimensional and or mechanical inspections of subassemblies or finished company products according to well defined criteria using standard physical, mechanical and/or electrical measurements
- Rework or reject subassemblies or finished products as required
- Accurately document the results of the inspections and testing
- Maintain all control document files and test records in a timely and accurate manner
- Coordinate calibration of all test equipment and fixtures
- Monitor critical equipment and instrumentation to ensure proper operation and calibration
- Participate in the construction and/or revision of SOP's for the inspection function
- Assist in the writing and updating inspection procedures, protocol and checklists
- Evaluate problems and make initial recommendations for possible correction action to supervise
- Work with Production Management and Quality Control to provide feedback to assemblers regarding accuracy of assembly procedures
- Perform review of documentation for compliance to established procedures and Good Documentation practices

Qualifications: Knowledge - HS diploma or equivalent. B. S. in Engineering, Quality preferred. The ability to read and interpret engineering drawings. Must have good English written and verbal communication skills. Good arithmetic skills are required. 2+ years Quality Control experience in Inspection is preferred. General proficiency of Microsoft Excel and Microsoft Word
